Description

Add ability to insert html element that in default state hide their content.
Syntax may be:

```
<spoiler>
This text is hidden by default
</spoiler>
```

This might be useful for example to hide rails logs.

- File spoiler.htm added

Something like this spoiler.htm

- Status changed from New to Closed

- Resolution set to Duplicate

As Michael Zakharenko and Sergey Startsev wrote, this can be done with {{collapse}} macro implemented by #12167 (Redmine 2.2). I am closing this issue.

Thanks for pointing it out.
