Redmine - Feature #389

Export Gantt charts to graphic files

2007-07-10 05:40 - Philippe Liège

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
Resolution:			

Description

Gantt charts can already be exported into a PDF file.
Could you please add a second export option that creates a graphic file. This file may then be directly inserted in
an Openoffice document.

History

#1 - 2007-08-26 03:58 - Jean-Philippe Lang

Functionality added in r666 (see attached example).

You can now export gantt charts to PNG files if RMagick is available
on your system.
