<b>Target version:</b>	5.1.0		

#### Description

The attached patch replaces `YAML.load` with `YAML.load_file` in `lib/tasks/locales.rake` and improves the error message when `rake locales` fail to parse a translation file.

Suppose `config/locales/tr.yml` is not a valid YAML file and `rake locales` raises an error. As shown in the example below, after the improvement, the name of the file containing the problem will be displayed instead of "`<unknown>`", making it easier to identify which file contains the problem.

Before:

```
Updating file ./config/locales/tr.yml
rake aborted!
Psych::SyntaxError: (<unknown>): did not find expected key while parsing a block mapping at line 7
column 3
```

After:

```
Updating file ./config/locales/tr.yml
rake aborted!
Psych::SyntaxError: (./config/locales/tr.yml): did not find expected key while parsing a block map
ping at line 7 column 3
```

#### Associated revisions

##### Revision 22356 - 2023-10-20 04:55 - Go MAEDA

Replace `YAML.load` with `YAML.load_file` in `locales.rake` and improve error reporting for invalid YAML files (#39207).

Patch by Go MAEDA.

#### History

##### #1 - 2023-10-20 04:56 - Go MAEDA

- Subject changed from *Use `YAML.load_file` instead of `YAML.load` to improve the error message of `rake locales`* to *Replace `YAML.load` with `YAML.load_file` in `locales.rake` and improve error reporting for invalid YAML files*

- Status changed from *New* to *Closed*

- Assignee set to *Go MAEDA*

- Target version set to *5.1.0*

Committed the change in [r22356](#).
