

Redmine - Defect #3942

Redmine + PostgreSQL 8.3: ActiveRecord::StatementInvalid in RepositoriesController#revision

2009-09-29 17:46 - Luca Pireddu

Status:	Closed	Start date:	2009-09-29
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Fixed		

Description

Trying to load a specific revision gives the following error:

```
PGError: ERROR: operator does not exist: character varying = integer
LINE 1: ...RE ("changesets".repository_id = 20 AND (revision = 33)) OR...
^
HINT: No operator matches the given name and argument type(s). You might need to add explicit type
casts.
: SELECT * FROM "changesets" WHERE ("changesets".repository_id = 20 AND (revision = 33)) ORDER BY
changesets.committed_on DESC, changesets.id DESC LIMIT 1

ActiveRecord::StatementInvalid (PGError: ERROR: operator does not exist: character varying = inte
ger
LINE 1: ...RE ("changesets".repository_id = 20 AND (revision = 33)) OR...
^
HINT: No operator matches the given name and argument type(s). You might need to add explicit typ
e casts.
: SELECT * FROM "changesets" WHERE ("changesets".repository_id = 20 AND (revision = 33)) ORDER BY
changesets.committed_on DESC, changesets.id DESC LIMIT 1):
app/models/repository.rb:97:in `find_changeset_by_name'
app/controllers/repositories_controller.rb:133:in `revision'
/usr/lib/ruby/1.8/webrick/httpserver.rb:104:in `service'
/usr/lib/ruby/1.8/webrick/httpserver.rb:65:in `run'
/usr/lib/ruby/1.8/webrick/server.rb:173:in `start_thread'
<snip>
```

This patch seems to fix the problem:

```

History

#1 - 2009-10-02 17:05 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Fixed

Fixed in [r2903](#).

#2 - 2010-06-15 16:13 - Anonymous

- Status changed from Closed to Reopened

Hi,

I'm reopening this since I have a very similar problem in `app/views/repositories/_dir_list_content.rhtml`

I changed

```
<% changeset = @project.repository.changesets.find_by_revision(entry.lastrev.identifier) if entry.lastrev && entry.lastrev.identifier %>
to
```

```
<% changeset = @project.repository.changesets.find_by_revision(entry.lastrev.identifier.to_s) if entry.lastrev && entry.lastrev.identifier %>
```

and it worked. Not sure if it applicable everywhere though.
