Redmine - Defect #3955

Activity module is not updated after Git repository update

2009-10-01 10:22 - Marko Poutiainen

Status:	Closed		**Start date:**	2009-10-01
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Wont fix		**Affected version:**	0.8.5

Description

The project activity module page doesn't update after a change to a repository until a user has visited the repository module page. This means that latest changes are often not visible to users.

Suggestion: the activity module should call the repository module's refresh before showing the activities.

History

#1 - 2009-10-01 12:44 - Felix Schäfer

I have post-commit hooks in my repos to update redmine after a commit, that might solve your problem. See #3667

#2 - 2009-10-02 16:50 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Wont fix

This has been discussed multiple times in the past.
Use post-commit hooks or a cron job.
