Target version:		Affected version:	5.1.1
Resolution:			
Description			
<p>Hello, recently an issue arised that attachment downloads (for instance PDF) don't work using Safari.</p> <p>There is an error message in the Javascript console:</p> <p>Blocked script execution in 'https://redmine.test.domain/attachments/download/1234/letter.pdf' because the document's frame is sandboxed and the 'allow-scripts' permission is not set.</p> <p>It is triggered by the CSP in app/controllers/attachments_controller.rb</p> <pre>headers['content-security-policy'] = "default-src 'none'; style-src 'unsafe-inline'; sandbox"</pre> <p>but is not affecting Firefox or Chrome so it might be a Safari Bug.</p> <p>Redmine: 5.1.1 Mac OS Version: Sonoma Safari Version: 17.4.1</p>
