

## Redmine - Defect #4194

### Hide paragraph terminator ¶ at the end of headings on html export

2009-11-11 04:36 - Brad Rushworth

<b>Target version:</b>	0.8.7	<b>Affected version:</b>	
<b>Resolution:</b>	Fixed		
<b>Description</b>			
<p>This defect is related to <a href="#">#1978</a>. This original issue should be closed, because the original posters reported the problem solved itself.</p> <p>My defect is the same paragraph terminator symbol ¶ following headings but instead of displaying itself on the wiki page, which it doesn't for me (and it shouldn't), I am concerned about the export to HTML feature where the symbol is permanently visible rather than hidden.</p> <p>You can see the symbols for example here: <a href="http://www.redmine.org/wiki/redmine/FAQ?format=html&amp;version=54">http://www.redmine.org/wiki/redmine/FAQ?format=html&amp;version=54</a></p> <p>We use this export to HTML feature to store baselined versions of our documents in say SVN. This ¶ symbol makes the output quite ugly.</p> <p>Can you please alter the CSS to make these symbols hidden for viewing and printing?</p>			

#### Associated revisions

##### Revision 3026 - 2009-11-11 12:10 - Jean-Philippe Lang

Hide paragraph terminator at the end of headings on html export (#4194).

#### History

##### #1 - 2009-11-11 12:05 - Jean-Philippe Lang

- Status changed from *New* to *Resolved*
- Target version set to *0.8.7*
- Affected version (*unused*) set to *devel*
- Resolution set to *Fixed*

Fixed in [r3026](#).

##### #2 - 2009-11-14 19:13 - Eric Davis

- Status changed from *Resolved* to *Closed*
- % Done changed from *0* to *100*

Merged into 0.8-stable in [r3044](#).
