Target version:	0.9.0			
Resolution:	Fixed		**Affected version:**	

Description

How to reproduce:

1. Add a comment to an issue
2. Edit the comment

After you save, the quote link (that was there before) is gone. Reload the page and it's there again.

If you use the abortlink the quote is there so must be something in the Ajax that forgets to add it back in.

I'm running r3078.
