Description

I would like to be able to create an Issue filter that lists all my currently opened issues across all projects. Instead I have to visit as many sites as I have projects I am working on.

Running Redmine 0.8.7, SVN 1.6.6. Not sure about the rest. We are hosted at SourceRepo.com.

Did you try the "View all issues" from the projects list?

- Status changed from New to Resolved

- % Done changed from 0 to 100

Hmmm, looks like the feature is there. Thanks for quick help. (doh!)

- Status changed from Resolved to Closed

- Resolution set to Invalid

Thanks for the feedback.
