#### Description

As mentioned in [#4423](#), I am using a master project to rollup issues from different subprojects that deal with different streams in a project. I use shared versions and track the issues at the master project level. However, when I go to the Reports (or Summary), I do not see the rolled up information, except a table titled Subproject. It would be nice to rollup issues to main project level with a checkbox to control the behavior, like the options available in Activity and Roadmap.

#### History

##### #1 - 2010-01-08 23:02 - lcr -guy

+1 for this BIG TIME! I'm in exactly the same boat.

##### #2 - 2013-03-18 13:36 - Terence Mill

related to [#2529](#) and [#7970](#) and [#12492](#)

##### #3 - 2018-10-03 15:26 - Go MAEDA

Implemented by [#2529](#).

Issue Summary page in Redmine 4.0.0 will also count subprojects' issues when "Display subprojects issues on main projects by default" setting is enabled.

##### #4 - 2018-10-03 15:26 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Fixed
