Target version:	1.0.0 (RC)	Affected version:	
Resolution:	Fixed		

Description

Revisions [r3453](#) and [r3454](#) broke On-the-fly user creation with LDAP

When attempting to enter a valid username and password for a user existing in AD, but not in Redmine I'm getting the following error (production.log):

```
Processing AccountController#login (for 192.168.0.100 at 2010-02-23 13:00:27) [POST]
  Parameters: {"back_url"=>"http%3A%2F%2Flocalhost", "action"=>"login", "authenticity_token"=>"cBC
dZZoPF6hXV2QeeggVcd/BKAKyH91aBDjRKdSSSA10=", "username"=>"user1", "controller"=>"account", "password"=>"[FILTERED]", "login"=>"Login »"}

ActiveRecord::UnknownAttributeError (unknown attribute: dn):
  app/models/user.rb:114:in `new'
  app/models/user.rb:114:in `try_to_login'
  app/controllers/account_controller.rb:140:in `password_authentication'
  app/controllers/account_controller.rb:35:in `login'
```

Rendering C:/webserver/railsapps/redmine/public/500.html (500 Internal Server Error)

Reverting only `app\models\auth_source_ldap.rb` to [r3452](#) fixes the issue and user gets created in Redmine.

Associated revisions

Revision 3485 - 2010-02-25 17:19 - Eric Davis

Fix LDAP on the fly creation. The User object doesn't have a :dn attribute.

Fixes #4918 and adds a test for the behavior.

History

#1 - 2010-02-23 23:39 - Tim Perkins

I'm running into this exact same issue too.

#2 - 2010-02-24 16:18 - Jean-Philippe Lang

- Assignee set to Eric Davis

#3 - 2010-02-24 18:25 - Eric Davis

- Status changed from New to 7

I'll fix this. It's odd that the tests didn't catch it.

#4 - 2010-02-25 17:23 - Eric Davis

- Status changed from 7 to Closed

- Target version set to 1.0.0 (RC)

- % Done changed from 0 to 100

- Resolution set to Fixed

I've fixed this in [r3485](#) and also included the unit test that I thought existed already (it was on a client's branch only). Sorry about introducing the bug.

#5 - 2014-05-30 03:06 - Adriano Machado

I'm working with redmine 2.5.1 and I'm getting this errors with valid accounts. Some accounts are created, but others aren't.

#6 - 2014-05-30 03:58 - Toshi MARUYAMA
