**Description**

This is the page that appears when you click on "Text formatting: help", and then scroll to the bottom of the help popup, and click on "More information".

There are 3 broken links on that page:

- \* `[[Guide]]` displays a link to the page named 'Guide': Guide
- \* `[[Guide#further-reading]]` takes you to the anchor "further-reading". Headings get automatically assigned anchors so that you can refer to them: Guide
- \* `[[Guide|User manual]]` displays a link to the same page but with a different text: User manual

All these point to /public/help/Guide.html, but that file doesn't exist.
