Redmine - Patch #5121

Fix issues list layout overflow

2010-03-18 21:36 - Rodrigo Rosenfeld Rosas

Status:	Closed		**Start date:**	2010-03-18
Priority:	Normal		**Due date:**	
Assignee:	Eric Davis		**% Done:**	100%
Category:	UI		**Estimated time:**	0.00 hour
Target version:	1.0.0 (RC)			

Description

Currently, #content overflows right sidebar if it is too big. The patch adds a scrollbar to #content on that situations.

- Status changed from New to 7

- Assignee set to Eric Davis

- Priority changed from High to Normal

- Target version deleted (1.0.0 (RC))

When does this overflow? Can you post a url example, a screenshot, and the browser you're seeing this in?

#4 - 2010-06-30 13:40 - Rodrigo Rosenfeld Rosas

- Status changed from 7 to Resolved

- % Done changed from 0 to 100

Hi Eric,

I've removed the overflow attribute from my local installation and apparently the problem has gone in some prior commit. So this issue can be cancelled.

Thanks for caring about.

#5 - 2010-06-30 15:32 - Eric Davis

- Status changed from Resolved to Closed

- Target version set to 1.0.0 (RC)

Rodrigo Rosenfeld Rosas:

I remember seeing some changes about that, glad it was already fixed. Thank you for the feedback.
