Target version: 1.1.0	
Resolution: Fixed	

Description

I want to add parent selection combobox on rename page, but when I change field type from text_field to collection_select string "Parent page" removed :(, how can I fix it?

select-in-rename.png

My patch for app/views/wiki/rename.rhtml

```
9c9
< <p><%= f.text_field :parent_title, :size => 100 %></p>
---
> <p><%= f.collection_select :parent_title, WikiPage.find(:all, :conditions => ["id <> ?", @page.id ]), :title, :pretty_title, {:prompt
=> ""} %></p>
```

P.S.

I am novice in RoR

Associated revisions

Revision 4375 - 2010-11-06 15:30 - Jean-Philippe Lang

Adds a combo to select parent on wiki page rename (#5136).

History

#1 - 2010-09-21 01:55 - Eric Davis

- Category changed from UI to Wiki
- Assignee set to Eric Davis
- Target version set to Unplanned backlogs

#2 - 2010-10-25 16:59 - Eric Davis

- Assignee deleted (Eric Davis)

#3 - 2010-11-06 15:24 - Jean-Philippe Lang

- Tracker changed from Patch to Feature
- Status changed from New to Closed
- Target version changed from Unplanned backlogs to 1.1.0
- Resolution set to Fixed

Feature added in r4375. The combo shows the page hierarchy.
