Target version:	1.0.0 (RC)		

Description

Attached you can find a patch that adds a hook to the issues/index.rhtml view and makes it possible to display information related to the current filter selection. (e.g. detailed statistics or something simple as http://github.com/rmoorman/redmine_hours_left)

I am currently developing a small plugin for redmine which allows to display the hours left on a project/set of issues. One place where I would like to add that piece of information is within the issues/index.rhtml view. Unfortunately there is currently no hook which I could use. This patch would add the hook I need and would surely provide some extra possibilities for other plugin developers to add more related information to redmine.

Add :view_issues_index_bottom hook. #5169

History

#1 - 2010-07-06 19:54 - Rico Moorman

Dear Eric,

Some time ago I filed this issue and I know that there is a lot of work to do. I also tried to get in touch via github but to no avail. I really would like this feature to be implemented. It's just one line of extra view code and could be used by various plugins to display query/project related information.
I could also do something in exchange in order to help the project.

Best regards,

Rico Moorman

#2 - 2010-07-16 05:16 - Eric Davis

- Status changed from New to Closed
- Target version set to 1.0.0 (RC)
- % Done changed from 0 to 100

I moved the hook a bit and named it view_issues_index_bottom. [r3842](#)
