<b>Category:</b> Time tracking	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b> It would be nice to be able to record start and end times in the time tracking module as well as the number of hours. This would allow for more flexible time tracking and would allow for companies to track work done after hours more easily.  If Redmine could automatically calculate the number of hours worked based upon the start and end time that would be even better.
