

Redmine - Defect #5183

Float center when trying to centered an image

2010-03-24 22:50 - Brice Maron

Status:	Closed	Start date:	2010-03-24
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Wiki	Estimated time:	0.00 hour
Target version:		Affected version:	0.9.3
Resolution:	Wont fix		

Description

Hi, i don't know if it really a bug or not but it doesn't look like it does anyway :p

i was trying to centered an image and so i've just type the textile syntax !=image!

and the generated code was :

```
<div style="float:center">
  
</div>
```

float center just does not exist. it should be smth like text-align:center .

History

#1 - 2010-03-27 18:08 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Wont fix

You can use the following to display a centered image:

```
p=. !image.png!
```
