

Redmine - Defect #5226

'can't typecast' in REST API for issues

2010-03-31 03:41 - yusuke kokubo

Status: Closed	Start date: 2010-03-31
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: REST API	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution: Duplicate	

Description

I wrote this script.

```
require 'rubygems'
require 'active_resource'

class Issue < ActiveResource::Base
  self.site = 'http://demo.redmine.org'
  self.user = 'LOGIN'
  self.password = 'PASSWORD'
end

Issue.find(:all).each {|i| p i}
```

and got bellow;

```
C:/Program Files/ruby-1.8/lib/ruby/gems/1.8/gems/activesupport-2.3.5/lib/active_
support/core_ext/hash/conversions.rb:182:in `typecast_xml_value': can't typecast
"6253" (RuntimeError)
    from C:/Program Files/ruby-1.8/lib/ruby/gems/1.8/gems/activesupport-2.3.
5/lib/active_support/core_ext/hash/conversions.rb:208:in `typecast_xml_value'
    from C:/Program Files/ruby-1.8/lib/ruby/site_ruby/1.8/rubygems/custom_re
quire.rb:31:in `inject'
    ...
```

in my local redmine,
edit [app\views\issues\index.xml.builder]

```
- xml.issues :type => 'array', :count => @issue_count do
+ xml.issues :type => 'array' do
```

I can get issues without RuntimeError.

#sorry for my bad english...
