

Redmine - Feature #5228

Users are just numbers

2010-03-31 17:49 - Maarten Brock

Description

I see that I can link to redmine users, but only with their user number. Would it also be possible to refer to users by their login? Or are these non-unique?

Logins could also be digits only, so while logins and user ids are unique on their own, their might be overlap when taken together.

#2 - 2010-04-01 11:13 - Maarten Brock

Felix,

Thanks for answering.

But that could be fixed by using a different prefix, right?

"Maarten Brock":<http://www.redmine.org/users/13899>

uses user ids.

And this could point to the same user by login:

"Maarten Brock":<http://www.redmine.org/logins/m.brock>

Not really. They relate each other but they weren't really duplicates. :-)
I set the relation.

#5 - 2014-05-24 10:49 - Andriy Lesyuk

I have implemented support for user logins in URLs for [WikiNG](#).

#6 - 2017-06-08 09:07 - Marius BĂLTEANU

Link to user profile was committed in [#4179](#). The following syntaxes are supported:

- [kurumi kurogi](#)
- [kurumi kurogi](#)

and a new proposal was made to support also user:1.

#7 - 2017-06-09 07:52 - Mischa The Evil

- *Related to Feature #3856: show userpage by 'login' rather than 'id'. added*

#8 - 2019-06-02 04:42 - Go MAEDA

- *Category set to Text formatting*

- *Status changed from New to Closed*

- *Resolution set to Fixed*

[#4179](#) delivered in Redmine 3.4.0 meets the request.
