

Redmine - Defect #5273

Unable to configure PluginSimpleCI plugin - custom fields list is empty

2010-04-08 16:58 - Alexander Zhovnuvaty

Status:	New	Start date:	2010-04-08
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
Was not able to select specific project custom field value in 'Project custom field storing CI feed URL' combo box. Here is a scenario on how to reproduce this issue:			
1. Install patch using next URL: http://www.redmine.org/wiki/redmine/PluginSimpleCI ;			
2. Go to Administration -> Custom Fields and add new item (Name: "CI feed URL", Format: Text, Length: 0-1000, Assigned to the only tracker);			
3. Go to Administration -> Plugins -> Configure.			
Current behavior: "Project custom field storing CI feed URL" list is empty;			
Expected behavior: The list contains the custom field.			
Below you may find the environment properties where this issue is appeared:			
C:\redmine-0.9.3>C:\ruby\bin\ruby.exe script/about
