

Redmine - Defect #5315

Unable to add widget on my page after removing it without reloading

2010-04-14 14:53 - minkbear minkbear

Status:	Closed	Start date:	2010-04-14
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Cant reproduce		
Description			
Step to reproduce.			
1. Goto my page			
2. Select calendar in combobox then press "Add"			
3. Remove calendar by clicking X button at the right conner of calendar.			
4. Try to select calendar in combobox again. It'll be disable.

History

#1 - 2010-04-14 17:36 - Petr Pospisil

Save and visit the page again...

#2 - 2010-04-18 11:07 - Jean-Philippe Lang

- Subject changed from *Unable to add Calendar on my page* to *Unable to add Calendar on my page after removing it without reloading*

- Priority changed from *Normal* to *Low*

#3 - 2010-07-08 18:15 - Felix Schäfer

- Subject changed from *Unable to add Calendar on my page after removing it without reloading* to *Unable to add widget on my page after removing it without reloading*

This seems to happen with any widget that can be added to *My page*.

#4 - 2010-12-17 05:13 - Mischa The Evil

- Category changed from *Website (redmine.org)* to *UI*

#5 - 2017-04-16 05:50 - Go MAEDA

- Status changed from *New* to *Closed*

- Assignee deleted (*Jean-Philippe Lang*)

- Resolution set to *Cant reproduce*

I cannot reproduce this issue on Redmine 3.3. In addition, MyController#page_layout ("Personalize this page") has been dropped by [#25297](#) for Redmine 3.4.0.
