

Redmine - Defect #5381

Issues of a deleted project are not deleted

2010-04-26 10:20 - gabriel scolan

Status:	Closed	Start date:	2010-04-26
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	0.9.3
Resolution:			
Description			
<p>In version 0.9.3, it seems that when a project is deleting, the associated issues are not deleted. One side effect of this is that there is no more possibility to delete a tracker that was only used in the deleted project, since the issues continue existing.</p>

Revision 3693 - 2010-04-27 18:52 - Jean-Philippe Lang

Adds an assertion on issues deletion when deleting a project (#5381).

History

#1 - 2010-04-27 18:49 - Jean-Philippe Lang

A test was added in r3693 in trunk. It also passes on 0.9-stable.

Please, provide some details on how to reproduce.

#2 - 2010-05-05 08:08 - gabriel scolan

here is the scenario:

- delete all the projects in which the tracker you want to delete is used.
- try and delete the tracker from the admin interface ==> not possible
- check the sql db : all the issues of the deleted projects still exists.

one possible root cause could be that I deleted projects containing sub-projects.

#3 - 2010-08-08 17:48 - Jean-Baptiste Barth

Are you sure projects are **deleted**, not just archived ?

I cannot reproduce the problem on current trunk :

- created a tracker "EvilTracker", affected it to a project
- created an issue on this project+tracker
- deleted the project
- deleted the tracker => ok
- verified the issue is deleted => ok

I leave the issue opened as I suspect there is a defect here, but please provide minimal steps to reproduce on a fresh clean install. And provide as many details as possible.

#4 - 2013-03-17 16:21 - Ivan Cenov

I tested now in trunk r11640:

1. Created a project
2. Created an issue in it
3. Deleted project
4. Refreshed the page with the issue - 404 returned -- the issue has been deleted.

May be this issue could be closed?

#5 - 2013-03-17 16:36 - Daniel Felix

- *Status changed from New to Needs feedback*

Did you check the database too if they are deleted too? This is one thing which is named by the author.

#6 - 2013-03-17 16:48 - Daniel Felix

- *Status changed from Needs feedback to Closed*

Ivan commented here: <http://www.redmine.org/boards/1/topics/35571?r=36950#message-36950>

The database entries were deleted too. This is one seems to be fixed and could be closed.
