Redmine - Feature #5405

change Emission mail address to the operating user

2010-04-29 21:21 - Antoine Beaupré

Resolution:	Duplicate			

Description

Right now, all email coming from redmine appears to come from the Emission mail address which is good, but not complete. A good thing would be to change the "From" to include details about "who" made the change. So instead of just having:

From: redmine@redmine.example.com

we could have:

From: User Joe <redmine@redmine.example.com>

... so that at a quick glance in our email clients, we would see who did the change in RT.
