Resolution:	Fixed		

Description

Very excited with Redmine! We are completely switching to Redmine after MS Project Server, Bugzilla, Mantis and Trac.

Is it possible to have email reminders or to user with assigned task? Reminder is sending email in the day of task due
with reminding that task is actually will over today and user has to extend its time or close?
Very useful especially on long term tasks.

Im second on [#15197] Add Contact database for all Redime site
http://rubyforge.org/tracker/index.php?func=detail&aid=15197&group_id=1850&atid=7163
Add phone, address, additional info about person. Especially it if an outsourcer, etc

Thanks,
Alex
