<b>Description</b>	
We are using Redmine 0.8.7.stable.	
I tried to export a list with about 700 tickets in PDF. But this export seems to be limited to 500 Tickets. Would be good if PDF is unlimited.

- Status changed from New to Closed
- Resolution set to Wont fix

See this [RedmineSettings](#) to up the limit, unlimited isn't an option though as any export is prepared in memory and any number too high could mean runaway processes.
