I need the same now !

So ...

I did this by hand now.

And as I moved a huge number off issues each issue move generated a mail to all watchers !

With this I flood my email server and reach my number of emails by day on Google APPS (my email provider) :-].

Well, my suggestion is that this merge feature have an option to generates only one alert for each user involved

I am not sure bulk editing issue generates mails or not.

If so, please create new feature request issue.
