

## Redmine - Defect #5994

### Creating new issue via email submission strips attached emails

2010-07-29 19:22 - Joshua Masek

<b>Status:</b>	New	<b>Start date:</b>	2010-07-29
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Email receiving	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Candidate for next minor release	<b>Affected version:</b>	
<b>Resolution:</b>			
<b>Description</b>			
<p>I have our redmine setup to receive emails to create issues using the "Fetching emails from an IMAP server" instructions at <a href="http://www.redmine.org/wiki/redmine/RedmineReceivingEmails">http://www.redmine.org/wiki/redmine/RedmineReceivingEmails</a>.</p> <p>I can successfully attach files to these emails and see them show up, except for emails attached to these files.</p> <p>I am attaching outlook msg files to a new outlook email message, and sending that to the redmine account.</p> <p>Should I expect to be able to do this?</p> <p>Of course, the workaround is to manually attach the email after the issue is created.</p>
