Redmine - Feature #6041

subtask duplicate gets parentless

2010-08-05 17:01 - GM 77

Status:	Closed		**Start date:**	2010-08-05
Priority:	Normal		**Due date:**

Target version:				
Resolution:	Duplicate			

Description
When duplicating a subtask the clone is created without a parent. As a user I would assume the clone in the same domain as the original. So the according "New Issue" form should contain the "Parent task" field filled with originals parent's issue id.
