

Redmine - Defect #6309

missing "not_a_valid_parent" from all the locale files?

2010-09-06 09:58 - Tiffany C

Status: Closed	Start date: 2010-09-06
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Translations	Estimated time: 0.00 hour
Target version:	Affected version: 1.1.3
Resolution:	
Description	
<p>I wonder if "not_a_valid_parent" is missing from all the locale files or not because the following error message showed up.</p> <p>"Parent task translation missing: en, activerecord, errors, models, issue, attributes, parent_issue_id, not_a_valid_parent"</p> <p>This error came up when I made the following operation.</p> <ol style="list-style-type: none">Suppose I have this kind of subtask tickets<ul style="list-style-type: none">130: parent<ul style="list-style-type: none">131: child<ul style="list-style-type: none">132: grandchildWhen I changed 131's parent task from 130 to 132, the above error message appeared. <p>Thanks.</p>

Yes, I hitted to this bug too. But it seems there must be "Circular dependency" exeption from here [source:trunk/app/models/issue_relation.rb#L50](https://source.trunk/app/models/issue_relation.rb#L50). I'll check it later.

#2 - 2011-05-03 01:13 - David Martínez Moreno

Azamat, any update? This is hitting me as well, Redmine 1.1.2.

#3 - 2011-05-24 15:07 - Etienne Massip

- Target version set to Candidate for next minor release
- Affected version (unused) changed from 1.0.1 to 1.1.3
- Affected version changed from 1.0.1 to 1.1.3

Actually, it can be reproduced very easily by trying to set an issue as parent of itself.

#4 - 2012-02-29 21:21 - Cassiano Monteiro

Actually, the key `not_a_valid_parent` is missing on the en.yml file (or other localization files).
