#### Description

Instead of having to always use the controller/action/id hash for a menu item, a resource route should also be allowed.

```
# init.rb for menus
# Old way
{ :controller => 'contracts', :action => 'show', :id => contract.id, :project_id => project}
# New way
contract_path(project, contract)
```

Might need to add some more modules/helpers into Redmine::Plugin or MenuItem.
