Redmine - Defect #6479

Changing tracker type will lose watchers

2010-09-24 00:33 - Kai Hu

Status:	Closed		**Start date:**	2010-09-24
Priority:	High		**Due date:**	
Assignee:	Jean-Baptiste Barth		**% Done:**	100%
Category:	Issues		**Estimated time:**	0.00 hour
Target version:	1.0.2			
Resolution:	Fixed		**Affected version:**	1.0.1

Description
version : 1.0.1
steps to reproduce: - create a defect ticket   - add a few watchers   - update the ticket to be a feature ticket   - all watchers are gone

Associated revisions

Revision 4181 - 2010-09-26 15:52 - Jean-Baptiste Barth

Fixed: don't reset watchers when changing tracker. #6479

History

#1 - 2010-09-24 06:48 - Mischa The Evil

- Priority changed from Normal to High

The implications of this behaviour results in unexpected loss of watchers...

#2 - 2010-09-25 15:58 - Mischa The Evil

Currently, a workaround to change the tracker **without** losing all the current watchers is to utilize the issue-move functionality.

#3 - 2010-09-26 15:51 - Jean-Baptiste Barth

- Status changed from New to Resolved

- Assignee set to Jean-Baptiste Barth

- Target version set to 1.1.0

- % Done changed from 0 to 100

- Resolution set to Fixed

Fixed in r4181. It may be too late for 1.0.2, so I target it for 1.1.0.

Cause of the bug : it's because changing tracker triggers build_new_issue_from_params method but without params[:issue]['watcher_user_ids'] (when an issue already exists, watchers are managed in the sidebar, not in the main form). It's just a temporary patch, it's not really clean that updating an existing issue triggers new/create actions. So it may need more work later...

It shouldn't wait for 1.1.0, Eric: could you look into adding it to 1.0.2, and if you don't stage it for 1.0.3?

#5 - 2010-09-26 18:35 - Eric Davis

- Target version changed from 1.1.0 to 1.0.2

Felix:

Agreed, it should be fine for 1.0.2 as long as it merges successfully.

#6 - 2010-09-27 00:21 - Eric Davis

- Status changed from Resolved to Closed

Merged into 1.0-stable
