<b>Description</b>			
I'm using redmine 1.0.2 and experiencing a very annoying defect: every time I create a new issue, the start date is filled with the current date even if i leave this field blank.			
I know <a href="#">#2269</a> is not implemented yet, but redmine should respect the blank value when I erase the default suggested value.

Oh, this bug happens even here, I deleted the date when created this issue and it's filled now. :P

I can confirm this issue on trunk at [r4215](#). It seems introduced during the IssuesController-refactoring in [r3688](#) followed by [r3689](#).

I was able to fix the issue by applying the following patch:

```

+++ app/controllers/issues_controller.rb      (working copy)

   end
   @issue.author = User.current
-  @issue.start_date ||= Date.today
+  if (request.get? || request.xhr?)
+    @issue.start_date ||= Date.today
+  end
   @priorities = IssuePriority.all
   @allowed_statuses = @issue.new_statuses_allowed_to(User.current, true)
 end
```

Thanks for the patch, but I decided to apply the [#2277](#) instead. I fixes the problem and makes what my company want.

##### #4 - 2010-11-07 00:17 - Jean-Philippe Lang

- Status changed from New to Resolved

- Target version set to 1.0.4

- Resolution set to Fixed

Fixed in [r4378](#).

##### #5 - 2010-11-14 12:09 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged in 1.0-stable in [r4398](#).

**#6 - 2013-08-01 15:03 - Raghu GS**

I am facing this issue in Redmine 2.3x versiom.
