History

#1 - 2010-10-16 02:08 - Toshi MARUYAMA

It seems to you upgraded redmine from 0.9.x to 1.0.1 and you forget to run "rake db:migrate".

#2 - 2010-10-16 04:29 - Vasily Titskiy

Actually, I got exactly the same error in 0.9.x (at some time) and decided to upgrade to 1.0.1. Nothing changes.

Also, please look at this topic: http://www.redmine.org/boards/2/topics/16046

Anyway, I'll run 'rake db:migrate' and show results.

#3 - 2010-10-18 15:46 - Vasily Titskiy

So, Apache server was stopped and I run all migration scripts:

```
sh-3.2$ rake db:migrate RAILS_ENV=production
(in /usr/share/redmine)
```

```
sh-3.2$ rake db:migrate:upgrade_plugin_migrations RAILS_ENV=production
(in /usr/share/redmine)

Migration info successfully migrated - removing old schema info table
sh-3.2$ rake db:migrate_plugins RAILS_ENV=production

Than Apache was started but nothing changes. Everything is working except viewing of one of our repositories.
