<b>Target version:</b>	
<b>Resolution:</b> Duplicate	
<b>Description</b> I know tag clouds are so overused web 2.0 technology, but I would find it helpful to tag my issues/wiki pages/documents with keywords for searching.  We do utilize custom fields for a majority of our specific needs, but this would cut across all asset types in redmine.	
<b>Related issues:</b> Is duplicate of Redmine - Feature #2897: Tagging in Redmine <b>New</b> <b>2009-03-04</b>	

#### History

##### #1 - 2010-11-19 20:45 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Duplicate

Same as [#2897](#).
