| <b>Description</b><br>In the ticket list, the standard filter setting is "Status = open", with that filter's checkbox checked. Thats OK.<br><br>But if I uncheck that filter, and apply that, the standard filter is in effect again. I presume this behaviour to be intentional, but I think it's not logical. Unchecking that filter means for me "use no filter at all", and that should result in listing each and any ticket - not in just reactivating the standard setting "open tickets". |                                  |
| <b>Related issues:</b><br>Is duplicate of Redmine - Defect #6844: Unchecking status filter on the issue... <b>Closed</b> <b>2010-11-07</b>  |                                  |
