### Associated revisions

## Revision 11339 - 2013-02-10 11:31 - Jean-Philippe Lang

Bulk watch/unwatch issues from the context menu (#7159).

### History

## #1 - 2010-12-22 22:06 - Jean-Philippe Lang

- Subject changed from Add item Watch/Unwatch to right-button-click menu to Bulk watch/unwatch issues from the context menu

Renamed since watch/unwatch link is already available in the context menu for watching/unwatching a single issue.

### #2 - 2012-01-09 16:45 - Oli Kessler

+1

Unwatching multiple closed issues is tedious and they quickly fill up the "Watched issues" block on "My page"

#### #3 - 2012-02-23 19:12 - Brenton Brown

+1

Redmine has become unusable in our organization, since we had always permitted unfettered "Add Watcher" access. Now we are all getting 75 emails a day on ticket updates we don't want. We need desperately to UNWATCH.
