Description

I feel that the font size overall for HTML email is too small.

Could it be bumped up a little?

Cheers

- Resolution set to Wont fix

I don't feel so but you can change the emails style in app/views/mailer/layout.text.html.rhtml for your needs.

This answer was updated by Jean-Philippe Lang over 7 years ago.

Current location for html email template resided in app/views/layout/mailer.html.erb
