Redmine - Feature #7232

Time Resource Management

2011-01-04 19:48 - Jason Waldrip

Status:	Closed		**Start date:**	2011-01-04
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Time tracking		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Fixed			

Description

It would be nice to see how many hours a given user has been allocated to all projects across the redmine installation. Additional I should be able to specify that a given user has X number of hours available in each day or week and then show a warning when trying to give that user a task where the combination of start time, end time and estimated hours interfere with the time and other resources allocated to that user.
