

Redmine - Defect #7307

HTTP 500 error on query for empty revision

2011-01-12 09:53 - Etienne Massip

Status:	Closed	Start date:	2011-01-12
Priority:	Normal	Due date:	
Assignee:	Toshi MARUYAMA	% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:	1.1.1	Affected version:	1.1.0
Resolution:	Fixed		
Description			
<p>On revision page, you can change the revision id then click on the 'Ok' button to get to the new revision page.</p> <p>If you remove the revision id field content and leave it blank then you'll get a HTTP 500 error.</p> <p>Additional question (UX) : why is the 'Ok' button displayed on the revision page and not on the repository page ?</p> <p>Tested with a SVN repo.</p>

Associated revisions

Revision 4703 - 2011-01-13 13:04 - Toshi MARUYAMA

scm: fix error on revision page for empty revision (#7307).

Revision 4704 - 2011-01-13 13:04 - Toshi MARUYAMA

scm: mercurial: fix error on revision page for empty revision (#7307).

Revision 4710 - 2011-01-14 21:22 - Jean-Philippe Lang

Respond with 404 instead of 500 when revision/entry is not found in the repository (#7307).

Revision 4712 - 2011-01-14 23:51 - Toshi MARUYAMA

scm: use #blank? instead of #nil? || #empty? at Repository#find_changeset_by_name(name) (#7307).

Referring r4711.

Revision 4713 - 2011-01-15 00:10 - Toshi MARUYAMA

scm: git: fix id at functional test_empty_revision test(#7307).

Revision 4714 - 2011-01-15 00:10 - Toshi MARUYAMA

scm: mercurial: fix id at functional test_empty_revision test(#7307).

History

#1 - 2011-01-12 11:01 - Toshi MARUYAMA

- File 7307-rev-empty.diff added

This is ad hoc patch.

#2 - 2011-01-12 12:21 - Gloriaer smith

- File leanspawithacai.jpg added

- Assignee set to Maxim Krušina

#3 - 2011-01-12 12:48 - Toshi MARUYAMA

- File deleted (leanspawithacai.jpg)

#4 - 2011-01-12 12:48 - Toshi MARUYAMA

- Assignee deleted (Maxim Krušina)

#5 - 2011-01-12 13:04 - Toshi MARUYAMA

| *Additional question (UX) : why is the 'Ok' button displayed on the revision page and not on the repository page ?*

Git shows branches and tags list box.

<https://projects.kde.org/projects/extragear/kdevelop/kdevelop/repository>

But, I don't know the reason of no 'Ok' button.

I tested in Subversion.
I will research other SCMs.

#8 - 2011-01-13 04:42 - Toshi MARUYAMA

- Assignee set to Toshi MARUYAMA

#9 - 2011-01-13 13:20 - Toshi MARUYAMA

- Status changed from New to Closed
- Target version set to 1.1.1
- Resolution set to Fixed

Fixed in trunk by r4703, r4704 and in 1.1 by r4707.

#10 - 2011-01-14 15:11 - Be Fio

Hmm. I'm using 4707 right now, and the issue doesn't seem fixed for me. I click the repository tab, click view all revisions, then in the "Revision: <input box> <ok button>" I just click the ok button without entering anything, and up pops a 500 error.

#11 - 2011-01-14 19:56 - Jean-Philippe Lang

- Status changed from Closed to Reopened

r4707 will return a 500 status code indeed. Maybe we could simply redirect to the revisions list when no revision parameter is given.

#12 - 2011-01-14 20:32 - Etienne Massip

I'm running r4709 and I get the same redmine 500 error I would get if I typed in a revision number which would not exist.

I don't have the Internal Server Error HTTP 500 any more (with svn, at least) so, as for myself, this issue is resolved.

#13 - 2011-01-14 20:49 - Jean-Philippe Lang

Yes, it's a user friendly 500 error but still, it's a 500 error response (meaning [Internal Server Error](#)) and this is not really appropriate. I think we should:

- response with a 404 when the revision that was entered was not found
- do a redirect to the revision list when no revision parameter is given

#14 - 2011-01-14 20:53 - Etienne Massip

- response with a 404 when the revision that was entered was not found
- do a redirect to the revision list when no revision parameter is given

Sure, both looks like a (far for 404) better behavior.

#15 - 2011-01-14 21:26 - Jean-Philippe Lang

500 error changed to 404 in r4711.

#16 - 2011-01-15 01:51 - Toshi MARUYAMA

- *Status changed from Reopened to Closed*

Fixed in trunk by from r4712 to r4714 and in 1.1 by from r4715 to r4717.
