

## Redmine - Feature #7403

### REST API for Versions

2011-01-21 19:53 - Anonymous

<b>Status:</b>	Closed	<b>Start date:</b>	2011-01-21
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	80%
<b>Category:</b>	REST API	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	1.3.0		
<b>Resolution:</b>	Fixed		
<b>Description</b>			
It would be great to have versions available via the REST API.

#### Associated revisions

##### Revision 6180 - 2011-07-04 21:34 - Jean-Philippe Lang

Adds REST API for versions (#7403).

##### Revision 6183 - 2011-07-05 18:29 - Jean-Philippe Lang

Makes versions resource shallow (#7403).

#### History

##### #1 - 2011-03-03 11:52 - Florent Fievez

+1

I have a database storing some info about our product versions, and for now, i must store redmine version id to display a link to redmine, I think it's bad to store id while it should be very simple for redmine to provide an api to display versions based on project and name.

##### #2 - 2011-03-18 13:19 - Ramesh Nair

Hey guys, I've had a crack at doing this. You can grab the changes from my forked code over at Github ->

<https://github.com/7city/redmine/commit/97341f33e61761e018f140e1d5e8b06c53e37b3d>

I'm not a Ruby developer so I'm sure it can be done much more elegantly!

##### #3 - 2011-03-18 13:20 - Ramesh Nair

Forgot to add, to fetch the versions as XML simply append ".xml" to the normal Roadmap URL as such:

<http://redmine/projects/myproject/roadmap.xml>

I did think of using versions.xml or something like that but I'm sure the Redmine core team have some better ideas on that.

##### #4 - 2011-03-18 15:23 - Ramesh Nair

URL is better now:

```
/versions.xml?project_id=<project number of url-friendly name>
```

##### #5 - 2011-03-23 08:43 - Toshi MARUYAMA

- Category set to REST API

**#6 - 2011-07-04 21:35 - Jean-Philippe Lang**

- *Subject changed from REST API - Versions to REST API for Versions*
- *Status changed from New to Resolved*
- *Target version set to 1.3.0*
- *% Done changed from 0 to 80*

Added in [r6180](#). See [Rest\\_Versions](#).

**#7 - 2011-07-21 19:40 - Alex Last**

I'll add support to Redmine Java API: <http://code.google.com/p/redmine-java-api/issues/detail?id=56>

**#8 - 2011-07-31 11:23 - Jean-Philippe Lang**

- *Status changed from Resolved to Closed*
- *Resolution set to Fixed*

**#9 - 2017-01-22 06:33 - Go MAEDA**

- *Related to Feature #9088: REST API to create Project Versions added*
