Description

I close an issue using commit message:

```
* Closes #3384 @1.0
```

Issue is closed. Time is somewhat reported but in a strange way:

- I **can** see it on issue page.
- When I click a time I **cannot** see any entries.
- I **can** see spent time on activity page.
- I **cannot** see time in reports.

Issue is from project which has one parent project and 4 subprojects.

Manually logged time is editable and available in reports.
