Redmine - Patch #7598

Extensible MailHandler

2011-02-10 08:20 - Yuki Sonoda

Status:	Closed		**Start date:**	2011-02-10
Priority:	Normal		**Due date:**	
Assignee:	Jean-Baptiste Barth		**% Done:**	0%
Category:	Email receiving		**Estimated time:**	0.00 hour
Target version:	1.1.2			

Description

app/models/mail_handler is useful but not extensibly from plugins. I think it would be useful if MailHandler were extensible by making a subclass based on it.

I wrote the attached patch. This introduces MailHandler#dispatch_to_default which just calls receive_issue by default. Plugin can extend the dispatch table by overriding #dispatch_to_default.

#1 - 2011-02-12 11:08 - Jean-Baptiste Barth

- Status changed from New to Resolved

- Assignee set to Jean-Baptiste Barth

- Target version set to 1.1.2

If it makes plugin development easier, let's go. Don't hesitate to tell us if you have ideas about a real API (don't know if it's really needed though).

Applied in [r4820](#), thanks.

#2 - 2011-03-06 13:55 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged in 1.1-stable.

#3 - 2011-10-25 12:33 - Shane Proctor
