

Redmine - Defect #7616

rake generate_session_store doesn't work when installing using rvm and sandbox

2011-02-12 23:43 - Mark Richards

Status:	Closed	Start date:	2011-02-12
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	1.1.1
Resolution:	Invalid		
Description			
Hi,			
I have followed http://www.redmine.org/projects/redmine/wiki/RedmineInstall to step 4 where I get a failure.			
(sandbox:redmine)mark@ubuntu:~/redmine-1.1.1\$ rake generate_session_store --trace			
(in /home/mark/bin/redmine/redmine-1.1.1)			
rake aborted!			
private method `chomp' called for nil:NilClass

/home/mark/bin/redmine/bin/rake:19:in `load'			
/home/mark/bin/redmine/bin/rake:19			
My setup is as follows:			
actionmailer (2.3.5)			
actionpack (2.3.5)			
activerecord (2.3.5)			
activeresource (2.3.5)			
activesupport (2.3.5)			
i18n (0.4.2)			
log4r (1.1.9)			
mysql (2.8.1)			
rack (1.0.1)			
rails (2.3.5)			
rake (0.8.7)			
rdoc (2.5.11)			
rdoc-data (2.5.3)			
test-unit (2.1.2)			

I am using Ubuntu 10.04
I installed rvm and sandbox.
I set rubygems in rvm to use 1.3.5 instead of the 1.5.2 it defaulted to.

Any help would be very much appreciated!

History

#1 - 2011-02-16 19:53 - Raphael Derosso Pereira

Had the same issue.

I run the following command:

```
gem install rack -v=1.0.1
```

and it worked after installation

#2 - 2011-02-21 13:37 - Etienne Massip

Did you manage to make it work ?

If not, could you try again without log4r ?

BTW, you should post that in "Help" forum.

#3 - 2011-03-02 15:33 - Georg Leciejewski

here is a patch for the logger class, which points to a problem in how you installed ruby:

<http://redmine.ruby-lang.org/attachments/download/488>

#4 - 2011-03-02 17:00 - Etienne Massip

- *Status changed from New to Closed*

Related to the following [Ruby 1.9 issue](#), never backported to 1.8.7 branch.

#5 - 2011-03-02 17:02 - Etienne Massip

- *Status changed from Closed to Reopened*

- *Resolution set to Invalid*

#6 - 2015-10-04 02:20 - Go MAEDA

- *Status changed from Reopened to Closed*

Current versions of Redmine don't have "generate_session_store" rake task.
I think this 4 years old issue can be closed.
