## Redmine - Feature #7626

## version due date and issue due date interactions

2011-02-15 15:58 - James Rowe

Description				
When adding issues to versions I expected the due date of the issue to match the due date of the version.				
Here are some behaviors I thought would be nice:				
<ul> <li>If an issue without a due date is added to a version with a due date it gets that due date</li> <li>If a due date is changed on a version prompt to 'standardize' this due date for the rest of the issues</li> <li>If an issue due date is changed to after the version due date a warning is thrown(?)</li> </ul>				
I was expecting similar interactions with due dates as related tickets have with percent done.
