

Redmine - Feature #7900

Restore issue

2011-03-17 09:39 - Luis Serrano Aranda

Status:	New	Start date:	2011-03-17
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:			
Description			
A undo delete or a Recycle Issues Bin (like Windows) only for admin. I think this new feature would be very interesting.

Don't let user "delete issues" (unset the right except admin) just only close them and u won't have to restore them.

#6 - 2012-04-11 14:19 - Luis Serrano Aranda

If the admin need this option.

#7 - 2013-11-08 14:33 - Lázaro Hermoso

+1. This is useful in case of a deletion mistake.

+1, because I just deleted all issues in a milestone by accident, since they were defined as sub-tasks of the issue I deleted.

#14 - 2014-06-19 17:31 - Jose Daniel Narvaez Bauste

+1 I have deleted issues by accident.

#15 - 2014-06-25 06:27 - Steven M

Man, what a fine piece of software. 3 years and still this issue is not done.

bwahahahahh, so true! =)

+1 to this feature, actually. Would be awesome.

Yes,, admin made mistake delete a issue. and then want to bring it back.

and no email notification configured, so i have no any history information about the deleted issue.

+1 and it should go to right-click, what if someone accidentally closes hundreds of issues...

The undo/restore should restore issue to previous state, based on journal!

#26 - 2017-07-13 10:45 - Allan Vig

+1 not only for issues but also wiki pages, news etc.
