

Redmine - Defect #7912

When adding Related Issues, Redmine asks for HTTP Authentication

2011-03-17 19:03 - Romulo Bahiense

Status:	Closed	Start date:	2011-03-17
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	1.1.1
Resolution:	Duplicate		
Description			
When editing an issue, if one tries to add related issues, Redmine can't detect that the user is already logged in and asks for username/password via HTTP Authentication, which incidentally does not work when you inform your credentials.			
If the user opted to "remain logged" in the login screen, Redmine is able to continue the operation as desired.			
Related issues:			
Is duplicate of Redmine - Defect #7843: Add a relation between issues = expli...		Closed	2011-03-11

History

What version of Rails are you using ?

This issues looks a lot like [#7843](#).

#2 - 2011-03-17 20:18 - Romulo Bahiense

I'm really sorry:

```
$ uname -a
Linux <host> 2.6.18-194.26.1.el5.028stab070.14 #1 SMP Thu Nov 18 16:34:01 MSK 2010 i686 GNU/Linux
$ gem1.8 list
```

- LOCAL GEMS ***

```
actionmailer (2.3.11, 2.3.5)
actionpack (2.3.11, 2.3.5)
activemodel (3.0.5)
activerecord (2.3.11, 2.3.5)
activeresource (3.0.5, 2.3.11, 2.3.5)
activesupport (3.0.5, 2.3.11, 2.3.5)
builder (2.1.2)
holidays (1.0.0)
i18n (0.5.0, 0.4.2)
icalendar (1.1.6)
postgres-pr (0.6.3)
prawn (0.8.4)
