

Redmine - Feature #8039

Start issues from 1 per project

2011-04-01 08:53 - Aleksandar Pavic

Status: Closed	Start date: 2011-04-01
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues	Estimated time: 0.00 hour
Target version:	
Resolution: Duplicate	
Description Does not seem that anyone reported this feature, however I've started to use Redmine in pretty big company, and we have ~80 ongoing projects. It would be better to have features/issues starting from 1 on each project, instead of for example 437, on a first project which is in totally different department.	
Related issues: Is duplicate of Redmine - Feature #5765: Issue Numbers per Project Closed 2010-06-27	

History

#1 - 2011-04-01 09:34 - Etienne Massip

- Category set to Issues

#2 - 2011-04-01 20:19 - Ivan Cenov

What would happen when moving issues from one to another project:

Let there be P1 and P2, and there be issue_1 in both: P1i1, P2i1. What will be the identifier of P1i1 when it is moved to P2?

#3 - 2011-04-03 18:04 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Duplicate

Same as [#5765](#).

Well I'd keep issue id as primary key in DB, but make them visible via second set of keys project & id, if issue is moved, than it would get new id.

Just released [the plugin](#), that can help you (it requires project key in addition to the issue number). Please try.
