

Redmine - Patch #817

Show date & time in project files list

2008-03-09 07:39 - Vic Fryzel

Status:	Closed	Start date:	2008-03-09
Priority:	Low	Due date:	
Assignee:		% Done:	90%
Category:	Projects	Estimated time:	0.25 hour
Target version:	0.7		
Description <p>My enterprise team has a special need, in that some of our designers work on images a lot, but would like a central repository for storing those images. The other requirement is that using SVN for the images is a little bit out of the scope of what we're able to provide to them right now.</p> <p>As such, they'd like the ability to upload multiple files with the same filename, but then they need to track the version somehow. I've created a patch to simply show the date and time on the project files list, so that users are able to select the most recent upload of a file.</p> <p>If you'd like to see more of this type of thing, I could certainly give versions to each uploaded file, as well as display the user who uploaded it.</p>
