Redmine - Defect #8224

Menu does not show on IE 9 beta

2011-04-25 21:02 - Charles Monteiro

Status:	Closed	**Start date:**	2011-04-25
Priority:	Normal	**Due date:**

Target version:			
Resolution:	Duplicate	**Affected version:**	

Description

Menu shows up on Chrome and FireFox but not on IE 9 beta.

Actually, its a pretty big issue for me since I use a biometric fingerprint reader and unfortunately its currently only working with IE. Firefox 4 killed the addon for that and they don't have a Chrome extension yet.

See this quick vid I captured demonstrating the issue:

Is duplicate of Redmine - Defect #7954: IE 9 can not select issues, does not ...	**Closed**	**2011-03-21**

History

#1 - 2011-04-25 21:14 - Brett Patterson

I can semi-reproduce the issue using 1.0.3.stable (yes, old version I know, but we're waiting on 1.2).

Just to confirm we have the same issue, after you right-click on an issue, hit the escape key. I think the menu may be showing up under the main context menu but because the context menu is huge in IE 9, the Redmine context menu is being hidden.

IE 9 redid some of their event handlers, and any PrototypeJS version less than 1.7 will exhibit "weird" behavior. Our instance of redmine is running PrototypeJS 1.6.0.3. I believe the fix would be to update PrototpyeJS to 1.7 to solve this issue.

Can you install the trunk version of redmine as a test to see if this is still an issue? I see Jean-Philippe updated to Prototype 1.7 on the 04-15-2011, so perhaps this is already fixed.

- Category set to Issues

- Status changed from New to Closed

- Resolution set to Duplicate

Closed as duplicate of #7954, fix has already been committed, will be released with 1.2.0 or 1.1.3, whichever comes first.

#4 - 2011-04-26 01:58 - Charles Monteiro

Sorry, is there a ball park estimate of when that release may happen ? thanks

#5 - 2011-04-26 09:22 - Etienne Massip

According to the Roadmap, 1.2.0 is due to 2011-04-30, at the end of the week, so I guess there will be no 1.1.3.
