Description	
Today I realized that tasks with 1-day length are not being paint with green when they are completed (100% done). I created a sample on demo installation, at http://demo.redmine.org/projects/test-bug-6579/issues/gantt If you change the duration of the 1-day task to more than 1 day, task becomes green. If you reduce the duration of the 2-dat task to just 1 day, task is not painted with green anymore.
